// PROFILE

Fullstack web and mobile developer with 4 years at Ianord, front-end lead on two projects. I build React / Next.js, NestJS and React Native apps end to end, and I enjoy moving forward as a team.

// SKILLS

Frontend	TypeScript · React · Next.js · Redux · Tailwind CSS · Angular
Mobile	React Native · Expo
Backend	Node.js · NestJS · Prisma · PostgreSQL · C# / .NET
Tools	Git · Docker · Jest · Figma

// EXPERIENCE

Fullstack Developer — Ianord Nov. 2022 — present
Lomme (Lille), FR

- Front-end lead on 2 projects in production (WebHoraire and our admin platform project); among the first developers of WebResto (2023).
- Software used in more than 250 schools and by more than 150,000 users.
- Launched the admin platform on my own: an internal back-office with configuration-driven tools.
- Complete rework of the inventory module of the WebGerest mobile app (React Native / Expo).
- Code reviews and agile sprints; mentored a fixed-term developer, interns and work-study students.

React · Next.js · TypeScript · NestJS · React Native · Redux

IT Support Intern — Mydibel 2020 · 2021
Mouscron, BE

- Two internships: workstation setup, user support, maintenance of production-floor PCs and server backups.

// PERSONAL PROJECTS

Coachix — B2B SaaS for sports coaches, in closed beta: multi-tenant, Stripe billing. coachix.fr

FlexyFoodies — Website and back-office for a food truck, deployed with Docker on a VPS. flexyfoodies.be
